COMMISSION SCOLAIRE SIR-WILFRID-LAURIER
SIR WILFRID LAURIER SCHOOL BOARD

Laval High Schools Ad Hoc Committee
June 5th, 2013

Step 1 - Discuss and write the pros & cons of the following model:

MODEL – One junior school & one senior school

PROS	CONS
Unified students ages	Ignoring traditions of two schools
Cultures are mixed	Concerns of overcrowding
Programs would be unified	Pedagogy – logistics
Eliminates the reoccurring issue of enrollment	Could create a long term imbalance effect on population
All teachers would have the same curriculum, experience	A disconnect with continuity of programs between the two schools
Special needs students would receive better resources – more in line for these students	The numbers at the senior level could exceed capacity – create a problem long term
Focus on the CORE programs would be executed efficiently	With this model, convince the government to build a new high school, long term would be counter productive
Scheduling of material resources – i.e. gym, lunch, library, & auditorium	
Concentration programs could thrive better with this dynamic in place	
Transportation	

Step 2 - Your team must reach consensus on the following question:

MODEL – One junior school & one senior school

"Would you recommend this model?"

Yes [X] No [ ]

Reasons:

Try something new!
