3.0 QUESTION PERIOD

The Chairman thanked those who wished to ask questions this evening for submitting their questions in writing.

In response to a question from Mark McNaughton, a parent at McCaig Elementary School, asking that schools receive the GST/PST rebate from expenses related to fundraising activities, the Director General advised that the board had decided to discontinue the practice of giving the GST/PST rebate back to schools since it is considered a revenue for the school board which is taken into consideration when distributing resources among all schools.

He also noted that the board had created a 50 000\$ equity fund to support the most disadvantaged schools with the revenues from the rebate.

He further noted that the Sir Wilfrid Laurier School Board had been one of the only school boards to have given the rebate to schools.

In response to a question from Steve Mitchell, a parent at McCaig Elementary School, asking that the walking distance for students be adjusted so as to be age appropriate, the Director General advised that the walking distance followed funding norms and that the Transportation Policy is reviewed each year.

In response to an additional question from Mr. Mitchell, the Director General noted that the school could submit its proposal for a change in the walking distances which takes into consideration the age of students to the Transportation Committee.

In response to a question from David Modlin, a parent at Lewis King Elementary School, regarding question period procedures, the Chairman responded that the length of the question period is set out in the rules of order and procedure of the school board and that the manner in which the question period is conducted is at the discretion of the Chairman.

In response to an additional question from Mr. Modlin regarding violence on school buses, the Director General agreed that this is a serious issue which Principals handle within the terms of the discipline policy of the school and the school board's Transportation Policy.

4.0 CHAIRMAN'S REPORT

The Chairman extended congratulations, on behalf of the Council of Commissioners, to Nancy Rupnik on her appointment to the Board of Directors of the Régie régionale de la santé et des services sociaux des Laurentides.

The Chairman extended appreciation to Laiq Hanafi and Augy Santini for their years of dedication to education and presented each with a plaque to honour their contributions.

The Chairman reported on a recent caucus meeting of the Council noting that issues such as the teachers job action, the legal case concerning the lease of the Holy Rosary Elementary Annex and the executive search for a new Director General had been discussed.

He continued by reading into the minutes a letter to the Ministre de l'Éducation, document #SWLSB-2002/01/23-CA-001, that commends the goodwill and the professionalism of the teachers of the Sir Wilfrid Laurier School Board.

At the request of the Chairman the Director General commented on the legal case concerning the renewal of the lease of the Holy Rosary Elementary School Annex.

The Chairman advised that PricewaterhouseCoopers had been engaged to conduct the executive search for a new Director General.

He went on to note that the format of the Selection Committee for the new Director General had been discussed and agreed upon at the caucus meeting held on 2002-01-22 and that the committee would consist of the following persons: the Chairman of the Council of Commissioners, the Chairman of the Executive Committee, and the Chairs of the Standing Committees with the exception of the Transportation Committee since the Chairperson of that committee would not be available.

The Chairman advised that the Treasury Board had responded to the board's resolution on salary scales and that it has instituted a 7% differential between a director of a service and the highest paid employee he/she supervises.

In closing, the Chairman drew the Council's attention to the upcoming Leadership Symposium in February 2002 and the official openings of Pierre Elliott Trudeau Elementary School on 2002-01-24 and Jules Verne Elementary School on 2002-01-28. He encouraged Council members to attend these events.

WHEREAS Hydro Québec has deposited a request to amend its Bi-Energy rates with the “Régie de l’énergie”;

WHEREAS the financial impact to school boards, by implementing this two-phased additional rate increase, which would take effect 2002-05-01 and 2003-05-01, results in additional expenditures of 55% for the consumption of Bi-Energy:

WHEREAS this new rate increase could be considered as additional budgetary compressions and hence adversely affect services to students directly;

WHEREAS additional costs for energy expenditures to school boards should be compensated by public funds;

WHEREAS Hydro Québec is a para-Government entity and its proceeds contribute financially to the Government of Québec’s operation and activities;
