Subject: Information about COVID-19 (coronavirus) – update no. 13

Dear Parents/Guardians/Employees,

Please find below information about pedagogical activities offered to students:

PEDAGOGICAL ACTIVITIES TOOLKIT FOR STUDENTS

- The Ministry of Education (MEES) will continue providing activities for students on the ecoleouverte.ca website.
- Pedagogical activities continue to be added to the [SWLSB Learning Backpack](#) on our website.
- In addition to the pedagogical activities from the MEES, our teachers may customize and/or create their own activities. The MEES mentioned that activities are not to be corrected or used for marking purposes.

As per MEES directives, the objective of these activities is to consolidate and maintain the learning acquired up until the school and centre closure. Although these pedagogical activities remain optional for students, teachers will be communicating with students on a weekly basis to provide pedagogical support.

For our Adult Education students, resources are available [here](#). We are awaiting more details regarding resources for Vocational Training students. These should be provided shortly.

School teams may also be sending additional information to their school/centre communities relating to student services, guidance, CEGEP applications, etc.

QUESTIONS

We realize that this fast-evolving situation generates many questions. The education network is adjusting and adapting with every communication received from the MEES. We can assure you that our staff remains dedicated to providing the best possible services to our students during these unprecedented times.

We invite parents who have questions to please write them [here](#). Answers will be provided in the SWLSB website under the FAQ section of the Coronavirus (COVID-19) page.

As we move forward together, please continue to take good care of yourselves, and follow hygiene measures and social distancing rules rigorously. We will get through this. *Ça va bien aller.*
