Strategies to Help your Child with Listening and Reading Comprehension

Does your child have difficulty comprehending oral instructions and information? Does he have difficulty understanding what he has read? Answering assignment questions? This presentation will address these issues and provide strategies to help with his listening and reading comprehension as well as how to help him address assignment questions.

June 10
1 to 2 p.m.
Laurie Leibov

Language Development and Language Disorders

Most children develop language in a typical way. However, some children are slower to pick up language and may be diagnosed with a Development Language Disorder (DLD). The goal of this presentation is to explain typical language development as well as what it means to have a language disorder. We will touch upon some basics of early language development and then go into more detail about different types of language disorders as well as what strategies can be used at home to support your child's language development.

Demystifying Anxiety... Everybody Gets Anxious

The presentation will focus on defining what is anxiety; the prevalence; causes and types of anxiety disorders. We will discuss how to better understand this disorder and what we can do to regain an optimal level of anxiety - going from a survival brain to a learning brain.
