

Circus Art Activities

Cotton Candy

Starting at the top of a empty paper towel roll, glue on pink or blue cotton balls.

cover about 3/4 of the roll.

Be A Clown

OK for the hat you can make a funnel out of paper and glue it together. Now have your little one decorate it either by gluing on various materials, painting it, coloring it with markers/crayons or all of the above. Next you can cut the center out of a paper plate and a slit from the outside to the middle.

Decorate and then place around the neck. Last add a nose, using an egg carton cup. Cut one out and paint it red, then attach yarn to two sides so you can wrap it around and tie it at the back of the head.

Make A Clown Face

Cutout various basic shapes (triangle, square, circle) of construction paper. Give your little one a large circle for the head. Now they can make a face using the shapes.

Circus Popcorn

Using paper lunch bags, let your little one decorate their own popcorn bag. Bingo dobbers work great with this. When bag is finished, fill it with popcorn!

Lion Head

Use a paper plate as the lions head. Glue yellow cotton balls or colored yarn all around the paper plate for the lion's mane. Let the child draw and color the face of the lion. Cutout ears from construction paper and glue them to the top of the paper plate. You can even cutout eye holes so it's a mask.

Clown Puppets

Find a picture of a clown in a coloring book and let your child color it. When finished cut it out and glue onto construction paper. Cut that out and glue it on to a straw. Using the straw as the handle, let the child act out a play for you!
