

Parenting a 21st Century Teen

The Sir Wilfrid Laurier School Board is holding a FREE workshop on parenting in the 21st century.

Today's children are digital citizens and are growing up in a wireless world we could never have imagined. The world is literally at their fingertips! We will have practical discussions about what you should know when it comes to teens and technology, and what you can do to keep the lines of communication open and your children safe.

Tuesday, January 21, 2014 at 7 p.m.
