

CEGEP – PREPARATORY SCIENCE PROGRAMS 081.B6

Most CEGEPs offer “bridge” programs (081.B6) to make up missing Math/Science pre-requisites required for Health Science, Pure & Applied Science, Environmental Science or certain CEGEP 3-yr Technology programs. Please note that these programs are intended for students **who have demonstrated a strong academic aptitude and good results in prior Math and Science courses (minimum average of 70% overall and in prior Math/Science courses)**. As well, a minimum average of **65% in English and French** is required. This option is **NOT** open to students who passed their high school math/science courses with low marks, **nor** is it designed for students who have **tried but failed** these pre-requisite courses.

i) For Students who are Missing Advanced Math & Science pre-requisites

ii) For Students Who Need to Improve their Academic Standing in Math 506/566, Chemistry, and Physics

This profile is intended for students whose academic record indicates a need for additional support. It is strongly recommended that students consult with Admissions for more information on this program. The program is **not** designed for students who have **tried but failed** the pre-requisite courses.
