

Public Health Directives

Isolation directives for your family bubble if a family member has symptoms of COVID-19

Jan. 27, 2021

Family member has COVID-19 symptoms (sore throat, runny nose, fever, cough etc.).
[Self-assessment tool](#)

Family member with COVID-19 symptoms **MUST get tested as soon as possible** (do not wait 24 hours). Appointments for testing may be made at:
<https://portal3.clicsante.ca/>

Members of the family bubble **MUST ISOLATE** until the test result is received.

If test result is **NEGATIVE**, everyone can resume regular activities* (school, work etc.)

If test result is **POSITIVE**, family bubble members **MUST get tested and remain isolated.** [Close contact instructions](#)

*Please note that if a student is part of an isolated classroom, the student **MUST REMAIN ISOLATED** until the end of the confinement period, regardless if they test negative
