## Parent Involvement

Parents are active partners in our school. They may choose to get involved at many different levels:

### Governing Board

The governing board is a decision-making body that is recognized by the Education Act and the MEQ. This committee is comprised of parents, teachers and support staff. Members are elected by their peers each September at the school's general assembly and serve a two-year term.

### Parent Participation Organization (PPO)

The Home & School Association is a dedicated group of parents committed to helping and enriching our students' school life.

### Volunteering

On occasion, teachers will ask for volunteer parents to assist them in their classroom or on school trips. Volunteers are always needed for school-wide activities and events. Let us know when you're available!
