

COMMISSION SCOLAIRE SIR-WILFRID-LAURIER
SIR WILFRID LAURIER SCHOOL BOARD

September 29, 2026

Subject: Update | Consultation on Schools, Attendance Zones and Optimization of the Use of Buildings in Laval

Dear Families,

As we prepare for the upcoming public assemblies on schools, attendance zones, and the optimization of the use of buildings in Laval, we want to provide some additional information about what to expect and how you can participate.

Over the past several years, the school board has been closely monitoring enrolment, student needs, and the use of its buildings in Laval. Since 2020, enrolment in our Laval schools has unfortunately declined by nearly 600 students. Combined with our current financial situation, this means we have a responsibility to look carefully at how our buildings and resources are being used while continuing to provide quality educational services to our students.

It is important to note that the purpose of the October 6 and October 8 public assemblies is for the school board to present the scenarios being considered to optimize the use of our buildings in Laval and to provide stakeholders with the opportunity to ask questions about the scenarios.

Following the public assemblies, all stakeholders will have an opportunity to provide feedback and submit their briefs until December 18, 2026.

Please be assured that all school communities will have an opportunity to be heard as part of the formal consultation process.

Information for Families Before the Public Assemblies

A summary document providing more specific information on the scenarios being considered, including enrolment trends and data, school capacity, and proposed attendance zone changes and school closures, will be published by the end of the week on the School Board's [website](#).

Public Assemblies and Opportunities to Provide Feedback

The **October 6** and **October 8** public assemblies will include a presentation of the consultation timeline and scenarios being considered, followed by a question period related to the scenarios presented.

We wish to remind you that the public assembly on October 6 is for the areas of Duvernay, Vimont, and Auteuil (**Saint-Vincent, Saint-Paul, and Terry Fox Elementary Schools, as well as Phoenix Alternative School and CDC Vimont**), whereas the October 8 public assembly is for the areas of Fabreville and Chomedey (**Souvenir, Twin Oaks, Our Lady of Peace, and Crestview Elementary Schools**).

235, montée Lesage
Rosemère (Québec) J7A 4Y6

450 621-5600

www.swlauriersb.qc.ca

Throughout the consultation period, questions, comments, and feedback may also be submitted through the consultation [form](#) on our website. Following the public assemblies, formal briefs and other documents can be sent to the following email address: consultations@swlauriersb.qc.ca. Although any member of the public may present a brief, **we strongly encourage Governing Boards to prepare a single brief on behalf of the school community concerned.**

Stakeholders who wish to present a brief verbally or ask additional questions will have an opportunity to do so during the question period at the **November 25, 2026**, meeting of the Council of Commissioners.

The consultation period ends on **December 18, 2026**. No final decisions have been made. The purpose of the consultation is to provide clear information on the scenarios being considered, hear from our communities and stakeholders, and ensure that the perspectives shared are carefully analyzed before any final decision is taken.

Sincerely,

James Di Sano
Chairperson

Florence Delorme
Director General

RSVP | Public Assemblies

TUESDAY, OCTOBER 6, 2026, at 7 p.m.
