

COMMISSION SCOLAIRE SIR-WILFRID-LAURIER
SIR WILFRID LAURIER SCHOOL BOARD

October 13, 2026

Subject: Update on the Laval Public Consultation

Dear Staff, Families and Stakeholders,

Following the public assemblies held on October 6, 2026, and October 8, 2026, we have taken the time to consider the questions, concerns, and perspectives shared by students, families, staff, and members of our school communities. We thank everyone who participated and took the time to share their views as part of this important consultation process.

The proposed scenarios were developed based on an analysis of enrolment trends, school capacity, educational needs, and financial considerations, and were presented for consultation before any final decisions were made.

The Council of Commissioners and the Director General share a responsibility to listen to our communities, carefully consider the options before us, and make decisions in the best interests of our students.

Following today's special Council meeting, the Council has decided to temporally suspend the portion of the consultation concerning proposed school closures for Our Lady of Peace Elementary School and Phoenix Alternative School and changes to attendance zones of Our Lady of Peace, Twin Oaks and Crestview Elementary Schools. We are committed to using this additional time to consider the feedback received and determine the most appropriate next steps.

The challenges facing our school board remain. Declining enrolment and underutilized school buildings require us to continue examining how our buildings and educational services are organized. At the same time, our school board continues to face financial pressures that must also be addressed. Together, we remain committed to finding responsible, equitable, and sustainable solutions that support the long-term needs of our students and school communities.

For the 2027-2028 school year, no school closures or changes to attendance zones arising from this consultation will take effect. Registration will proceed as usual.

CDC Vimont and Phoenix Alternative School

The consultation concerning the potential relocation of CDC Vimont and Phoenix Alternative School will continue. Phoenix Alternative School will remain open and operate as a distinct school throughout the 2027-2028 school year. No final decision has been made regarding its future location.

As we move forward, we will continue to consider the feedback received, engage with the staff directly affected, and assess the educational, operational, and financial implications of the available options.

Employee Information Session and Second Public Assembly

The information session for employees scheduled for October 21 and the public assembly scheduled for November 25 will proceed as planned. Both will focus exclusively on the potential relocation of CDC Vimont and Phoenix Alternative School.

We recognize that uncertainty is difficult, particularly when changes may affect students, families and staff. While not every concern can be addressed or every preferred outcome achieved, we are committed to listening, examining all options, and communicating openly throughout this process.

The Council of Commissioners and the Director General share the same priorities: student success and well-being, quality educational services, and the long-term strength and sustainability of our schools. We will continue to work together, guided by these priorities, to determine the most appropriate path forward.

Thank you for your participation, your feedback, and your continued commitment to our schools.

Sincerely,

James Di Sano
Chairperson

Florence Delorme
Director General
